Pathways Ltd, UK

**Gale Spring** RMIT University,  
Australia

#### GENERAL CHAIR

**Matthew Sorell** University of  
Adelaide, Australia

#### LOCAL CHAIR

**Peter Ramsey** University of  
Adelaide, Australia

#### PUBLICITY CHAIR

**Gale Spring** RMIT University,  
Australia

#### C O N F E R E N C E COORDINATOR

**Tibor Kovacs** ICST

TECHNICAL PROGRAM  
COMMITTEE: [www.e-forensics.eu/orgncomm.shtml](http://www.e-forensics.eu/orgncomm.shtml)

### SCOPE

The Second International Conference on Forensic Applications and Techniques in Telecommunications, Information and Multimedia (e-Forensics 2009), is an opportunity to showcase state-of-the-art forensic technologies to local, regional and global stakeholders in fighting crime in the digital domain.

The exhibition is open to developers, suppliers and specialists in such high-technology areas as:

- Computer and digital forensic software
- Surveillance and evidence-gathering tools
- Scientific laboratory analysis tools
- Publishers, consultants and other specialist service providers

#### Target Audience

**Academic and Research Community:** e-Forensics 2009 will attract a large number of scholars in digital and computer forensics, representing the leading academic institutions and research centers around the world.

**Law Enforcement Agencies:** e-Forensics is supported by a number of national, regional and global law enforcement agencies and organizations. e-Forensics 2009 will host participants from numerous police agencies and intelligence agencies from Australia, the Asia-Pacific Region and Europe.

**Legal Practitioners:** The First International Workshop on e-Forensics Law will serve as a platform for professionals to discuss legal and regulatory aspects of digital evidence and forensics in telecommunications, information and multimedia. The workshop is designed to cater for the interests of a wide array of legal practitioners.

**Corporate Vendors:** The First International Workshop on Forensic Sensing Technologies will bring together experts working in the development/implementation of non-invasive and highly sophisticated detection and identification tools and systems. The workshop and the conference provide opportunities for representatives of corporate vendors to network and scout for potential partners and collaborators.

## EXHIBITION & SPONSORSHIP INFORMATION

ICST offers various sponsorship opportunities to companies and organizations that wish to gain international exposure at our unique business events. As a sponsor, you will be able to increase the visibility and your product awareness within a circle of well-known professionals, hear about recent innovations and meet the researchers behind them, network with other industry representatives, and enjoy the interactive panel discussions at our conferences.

We offer unique and well-balanced packages to support the event and present to a well and pre qualified audience. The different opportunities are:

- Co-Host of the event
- Partner of the event
- Sponsor of the event
- Accompanist of the event
- Exhibitor at the event
- Host of the cocktail reception
- Gift Sponsor
- Workshop Sponsor

Organizations interested in participating at the Exhibition should contact ICST at [exhibition@icst.org](mailto:exhibition@icst.org)
